

Highlights of FY2012 Government Debt Management

Issue Amounts

- JGB total issuance amount for FY2012 is planned to be 174.2 trillion yen, while JGB market issuance amount (Calendar Base) is planned to be 149.7 trillion yen. Both amounts show an increase from their levels of the previous year, marking consecutive increases for four years on initial budget basis.

Main Policies in FY2012

○ Stable and Smooth Issuance of JGBs

- JGB total issuance amount in FY2012 is planned to reach the largest-ever amount on initial budget basis amid the unstable environment of the global financial market due to the European sovereign crisis etc. Through the process of dialogue with the market, JGB issuance plan was formulated based on the investor needs and market trends in order to achieve stable and smooth financing.
- Aiming at minimizing medium- to long-term refunding risk, the increase in JGB market issuance (Calendar Base) is allocated to 20-year and 10-year maturity ranges. The average maturity of the JGB market issuance was consequently lengthened to 7 years and 9 months in a stable manner.

○ Issuance of the “Reconstruction Bonds for Retail Investors” and the “Reconstruction Supporters’ Bonds for Retail Investors”

- **Issuance of the “Reconstruction Bonds for Retail Investors”**
 - “Reconstruction Bonds for Retail Investors” will be continued to be issued to fund the expenditures for reconstruction from the Great East Japan Earthquake.
- **Issuance of the “Reconstruction Supporters’ Bonds for Retail Investors”**
 - In addition, a new product will be issued from April 2012 with a view to encouraging a wide range of public to contribute to the reconstruction efforts with a low interest rate (0.05%) for the first three years.

○ Discussions and Preparation toward Resuming the Issuance of Inflation-Indexed Bonds

- Practical discussions will be held with market participants on detailed product designs etc toward resuming the issuance of Inflation-Indexed Bonds. The resumption is then expected with appropriate conditions in place.

JGB Issuance Plan for FY2012

〈Breakdown by Legal Grounds〉

(unit: trillion yen)
