Total	180,692.0	183,805.5	3,113.5	

- Buy-back program in FY2026 is planned to be implemented based on market conditions and through discussions with market participants.
- The maximum amount of front-loading issuance of Refunding Bonds in FY2026 is about 47 trillion yen.

(Note1) Figures may not sum up to the total because of rounding.

(Note2) "JGB Market Issuance (Calendar Base)" refers to JGBs issued at face value by scheduled auctions from April to next March (periodic auctions).

(Note3) Non-Price Competitive Auction II is an additional issuance for JGB Market Special Participants after the normal auction (the amount assignable to each Market Special Participant does not exceed 10% of the amount awarded to it in the normal auction), and the price for the additional issuance is equal to the weighted average accepted price in the normal auction.

The amount of the Non-Price Competitive Auction II of the Initial Plan for FY2026 is calculated by multiplying the amount of "JGB Market Issuance (Calendar Base)" (40-year, 30-year, 20-year, 10-year, 5-year and 2-year bonds) by 4.5%.

(Note4) "Adjustment between fiscal years" refers to leveling-off of the issuance between fiscal years through front-loading issuance and deferred issuance during an accounting adjustment period.
